LATE WAR VETERANS

**Camp Roosevelt
Elects New
Officers.**

**MERGER PLAN OF
TWO SOCIETIES**

**One Organization to be Effected
of Associations Growing Out
of Spanish War.**

The annual election of officers of Camp Roosevelt, Spanish-American War Veterans, was held last evening in the Camp's new headquarters in the Oregon Block. There was a large attendance of the men who had seen service in the armies in the Philippines, Hawaii and Cuba, and the election resulted as follows:

Commander, Isaac Lando.
Senior Vice-Commander, J. H. Flynn.
Junior Vice-Commander, J. W. F. Miller.
Adjutant, H. M. Tucker.
Quartermaster, W. B. Dods.
Chaplain, Daniel Dunlop.
Officer of the Day, J. L. Benoit.
Officer of the Guard, Wm. H. McCormick.

The Camp decided to hold a social meeting on the fourth Monday of every month, when members will be permitted to bring friends who desire to affiliate with the Association.

It was brought out at the meeting that the two organizations known as the "Spanish-American War Veterans" and the "Spanish War Veterans" are taking active steps whereby the two may be united into one. These organizations are similar to that of the Grand Army of the Republic, and it is anticipated by the newer organizations that they will take the place and influential position which has for so many years been held by the G. A. R.

At the meeting of the Convention of the National Association of Spanish-American War Veterans, held at Indianapolis in September last past, a committee was appointed to work with a like committee of the Spanish War Veterans having in view the consolidation of the two orders. Both committees were given full power to act and to select officers. The joint committee will meet in New York city on January 13 at which time the union will be made an accomplished fact. This action of the veterans of the Spanish American war now makes certain one of the strongest military organizations in the United States. The membership of the two organizations already is close to 200,000 and includes many of the best known officers of the late war, among which are President Roosevelt, General Miles, Wheeler and others.

A local camp of Spanish-American War Veterans has been organized in this city and a memorial has been forwarded to New York favoring amalgamation. Members in either organization, in good standing, will become members in the new organization, and it is expected that the union will not only do away with all the rivalry which has existed in the past, but will make a very much stronger and more enthusiastic organization.

The objects of the order are identical with those of the G. A. R., and taking into consideration the influence and assistance rendered to the country and the members by that organization, it speaks well for the future of the veterans of the Spanish-American war.

There are about one hundred of these veterans on these Islands at the present time, and it is expected that the next Decoration Day will see the boys out in uniforms in large numbers.

**BUYING FINE
CATTLE ABROAD**

LONDON, Dec. 6.—The last few months have found in the United Kingdom an unprecedented number of American buyers of thoroughbred cattle, whose purchases of high class breeding stock aggregate many thousands of pounds. A number of the animals bought are intended for exhibition at the St. Louis Exposition. The prices paid range from \$2,100 to over \$6,250 per head. Scores of high priced bulls and cows have been shipped during the summer and fall. Among the buyers now here is C. E. Marvin, of Lexington, Ky., who will take back twenty-five thoroughbreds in May and July. J. S. Goodwin, of Chicago, has purchased a number of Angus breeders, and the Armour's agent is sending one hundred Herefords to the United States. A number of purchases also have been made of tiny Dexter and Kerry cattle in Ireland, the breeding of which has recently become quite the fashion in England under the patronage of Lansdowne and other titled faniers.

The ruling of Dr. Salmon, the chief of the United States Bureau of Animal Industry, allowing the importation of Jersey and Guernsey cattle into the United States without the tuberculin test is expected to greatly stimulate purchases in those islands. The Agricultural Department's agents during the last ten years have inspected over 20,000 head of cattle in Jersey and Guernsey and have not found a single case of tuberculosis. On the other hand, England and Scotland are badly infected and breeders here on that account apprehend the early adoption of more stringent quarantine measures by the United States.

**TO IMPROVE OUR
MONETARY SYSTEM**

INDIANAPOLIS (Ind.), December 6.—"What further steps should be taken at this time for the betterment of our monetary system?" Mr. Hugh H. Hanna was asked today.

Mr. Hanna was chairman of the executive committee of fifteen created by the National Monetary conference held at Indianapolis in 1897, and ever since he has been active in pressing the demands of financial reformers.

"First," he replied, "our gold standard law of 1900 should be strengthened by machinery for maintaining parity between gold and silver. The public mind is prepared for as perfect a gold standard as can be established. A law providing for the payment of gold for silver at the treasury on demand is the one remaining step necessary to secure absolute parity of all our moneys. Both the Overstreet bill and the Hill bill, introduced in the last session, make full and wise provision.

"Second, an element of elasticity in our National Bank currency should be provided. A small step, equal in amount to say 10 per cent of the capital of the bank, is sufficient for demonstration of efficiency and safety.

"If its desirability is proved, gradual increase within a term of years to say 50 per cent of the amount of the capital, with full and unquestioned provision for the redemption of notes of insolvent banks as afforded in the Levering and other bills, is the other step immediately necessary.

"The general subject appears complex and our people are, therefore, disinclined to study it. The principles are simple. The humblest citizen is interested in the perfection of money laws.

"Only the absolute assurance of parity will make a New York bill of exchange as acceptable in the commerce of the world as a bill of exchange on London.

"Assured parity of the metallic currencies, and scientific provision for elastic bank currency without risk of redemption, will not only strengthen the fibre of our domestic commercial interests, but will do more to make possible the sale of products of American labor than any other one act of legislation.

"That the President, Secretary of the Treasury and Comptroller of the Currency should all so courageously at this time advocate such legislation indicates the growth of public opinion favorable to laws in the interest of all of our people, without preference, the importance of which should arouse the business men of the country to the determined, timely support of the effort being made to secure Congressional action."

Memorial to Mme. Agassiz.

NEW YORK, Dec. 6. — Announcement has been made by the Alumnae of Radcliff College that they have succeeded in raising \$100,000 for a new building for the college, says a Tribune dispatch from Cambridge, Mass. The new building will be a memorial to the widow of Professor Agassiz, who made her life work the founding and sustaining of the college.
